

Article :

Charlier P, Huynh-Charlier I, Poupon J, Keyser C, Lancelot E, Favier D, Vignal JN, Sorel P, Chaillot PF, Boano R, Grilletto R, Delacourte S, Duriez JM, Loublie Y, Campos P, Willerslev E, Gilbert MT, Eisenberg L, Ludes B, de la Grandmaison GL. Multidisciplinary medical identification of a French king's head (Henri IV). *BMJ* 2010;341:c6805

L'ICMJE, recommande que l'attribution de la qualité d'auteur repose sur les 4 critères suivants :

1. *Contributions substantielles à la conception ou aux méthodes de la recherche ou à l'acquisition, l'analyse ou l'interprétation des données ; ET*
2. *Rédaction préliminaire de l'article ou sa révision critique impliquant une contribution importante au contenu intellectuel ; ET*
3. *Approbation finale de la version à publier ; ET*
4. *Engagement à assumer l'imputabilité pour tous les aspects de la recherche en veillant à ce que les questions liées à l'exactitude ou l'intégrité de toute partie de l'œuvre soient examinées de manière appropriée et résolues.*

Outre son imputabilité pour les composants de la recherche qu'il ou elle a effectués, un auteur doit être en mesure d'identifier quels coauteurs sont responsables d'autres parties spécifiques de l'œuvre. De plus, les auteurs doivent avoir pleine confiance en l'intégrité des contributions respectives de leurs coauteurs.

Philippe Charlier, forensic medical examiner and osteo-archaeologist, Paris PC conceived and headed the project, did the anthropological and paleopathological analyses, and the microscopic and endoscopic examinations. PC wrote most of the manuscript, with critical input from LE, JP, GLDLG	yes	yes	yes	yes	No BMJ Letter http://www.bmj.com/content/341/bmj.c6805/rr/669664
Isabelle Huynh-Charlier, radiologist, Paris IHC did the radiological examinations and three dimensional computed tomography reconstructions	yes	yes	yes	yes	No (email)
Joël Poupon, biological toxicologist, Paris JP and LE did the elemental analyses. PC wrote most of the manuscript, with critical input from LE, JP, GLDLG.	Honorary				?
Christine Keyser, specialist in forensic genetics, Strasbourg PFC, EW, MTPG, CK, and BL did ancient DNA extractions and analyses. CK is guarantor?	Honorary				?
Eloïse Lancelot, elemental toxicologist	yes	no	no	no	No (email)

Dominique Favier, organic molecular analyst DF did the molecular organic analyses.	Honorary				?
Jean-Noël Vignal, doctor in anthropology JNV did the three dimensional facial reconstructions.	Honorary				?
Philippe Sorel, arts historian PS provided data about historical face moulding.	Honorary				?
Pierre F Chaillot, resident, Lyon PFC did cranial measurements from computed tomography reconstructions.	Honorary				?
Rosa Boano, anthropologist RG and RB provided comparative data about the Italian embalming process.	Honorary				?
Renato Grilletto, professor of anthropology RG and RB provided comparative data about the Italian embalming process.	Honorary				?
Sylvaine Delacourte, perfumer SD and JMD performed professional olfaction.	Honorary				?
Jean-Michel Duriez, perfumer SD and JMD performed professional olfaction.	Honorary				?
Yves Loublier, palynologist YL carried out botanical (pollen) observation from oral deposits.	Honorary				?
Paola F Campos, specialist in paleogenetics PFC, EW, MTPG, CK, and BL did ancient DNA extractions and analyses.	Honorary				?
Eske Willerslev, professor in paleogenetics PFC, EW, MTPG, CK, and BL did ancient DNA extractions and analyses.	Honorary				?
M T P Gilbert, specialist in paleogenetics, Copenhagen PFC, EW, MTPG, CK, and BL did ancient DNA extractions and analyses.	Honorary				?
Leslie Eisenberg, forensic anthropologist, Wisconsin, US JP and LE did the elemental analyses. PC wrote most of the manuscript, with critical input from LE, JP, GLDLG	Honorary (English editing)				Yes BMJ Letter http://www.bmj.com/content/341/bmj.c6805/rr/668615
Bertrand Ludes, professor of legal medicine, Paris PFC, EW, MTPG, CK, and BL did ancient DNA extractions and analyses.	Honorary				?
Geoffroy Lorin de la Grandmaison, professor of legal medicine, Paris PC wrote most of the manuscript, with critical input from LE, JP, GLDLG	No	Yes	No	?	yes BMJ letter http://www.bmj.com/content/341/bmj.c6805/rr/668615
